

How to Set a Shortcut to AdmiredLife on Your Smartphone Screen

Android

It's easy to add the AdmiredLife.com website shortcut to the Android home screen right next to your favorite apps. Most website shortcuts look just like an app on your Android Phone, so the shortcuts won't look out-of-place.

Step 1. Open up your browser and navigate to **Admiredlife.com**

Step 2. Add it to your **Bookmarks** (Menu / Add Bookmark / Done)

Step 3. Open the **Bookmark Manager** (Menu / Bookmarks)

Step 4. Long Press the site that needs to be added to your home screen

Step 5. From the pop-up menu, select **Add Shortcut to Home**

Now you will find the shortcut in the home screen of your Android Phone. Just tap the shortcut to launch the AdmiredLife website.

Note: For phones used in the field to set the GPS location of memorials, we suggest you create an additional shortcut for the SETGPS address:

www.admiredlife.com/setgps
